

The Government of New Brunswick recognizes that the process for an internationally educated nurse (IEN) to become licensed to practice as a Registered Nurse (RN) in New Brunswick is a major undertaking. With that in mind, New Brunswick's IEN Navigation service provides customized, client-centred service to IENs at no cost to the candidate. The service assists candidates with key barriers they might experience during the process to licensure.

Internationally educated nurses can contact the IEN Navigation service at [IENIFEnavigation@gnb.ca](mailto:IENIFEnavigation@gnb.ca) or visit us online at [Internationally Educated Nurses \(gnb.ca\)](http://Internationally Educated Nurses (gnb.ca))
