Professional Activities:

Preceptor to NP students from various universities

Various committees in nursing homes

Nominated by:

Gail Jenkins and Emily Manderville

Reason for Accepting Nomination:

I have accepted this nomination because I believe that I can offer the Board a unique perspective as a Nurse Practitioner working in long-term care. I am aware of the challenges and successes facing RNs, NPs, patients, and families in the long-term care setting, and feel this knowledge will be beneficial in shaping the future of NP practice and long-term care nursing in New Brunswick. I look forward to networking with other Nursing leaders and influencing change in our profession.
